

Universal lever shears

◆ NCT 200/1,5

Fulfilment:

Shears are „self-sharpening“.

Extreme shearing capacity is reached because they are without any cutting edge. Therefore no additional sharpening is necessary.

Bent, ground blade of high-quality steel enables easy shearing of outer and inner radii, of inner corners, arches, contours, without any deformation of material which processed l.

Possibility of few meter bands to be sheared.

The shearing length, max. shearing capacity, steel sheet, aluminium, copper, zinc, brass, lead, chromium steel.

Technical specification:

Type NCT		200/1,5
Sshear length	mm	200
Max. shearing length without material - shifting:		
- steel		1,5
- aluminium		3,0
- copper		2,5
- zinc	mm	2,5
- brass		2,0
- lead		5,0
- chromium (V2A)		1,2
Outside dimensions: length, width, height	mm	450, 90, 250
Weight	kg	4
